

City & Guilds 2382 – 18 Requirements for Electrical Installations BS7671: 2018

The IEE Wiring regulations (BS7671) are the definitive standards for the electrical industry in respect of safe use and operation of electrical equipment and systems. They set requirements and operating criteria for the UK and correspond to EC Standards are recognised by the British Standards Institute as a British Standard (BS7671)

We offer the new IEE 18th Edition in a range of options to suit your skill level:

1 day course –

Training update on the 18th edition and exam - this is aimed at electricians who have 17th Edition including up to 3rd amendment.

2 day course –

In depth training update on the 18th edition and exam, aimed at those who have the 17th Edition but no amendments.

3 day course -

This qualification is primarily aimed at practising electricians and other allied professionals e.g. electrical engineers, contracts managers, designers and other related trades needing to update and enhance their understanding of the IEE Wiring Regulations. It is intended to ensure that on completion individuals are conversant with the format, content and the application of the 18th Edition of the IEE Wiring
